THANK YOU Upper Valley Disposal & Recycling Center! Lexi and Sarah came to campus and did an on campus field trip with Preschool through first grade. Amanda joined them from Napa County. The children learned what items went to each specific bin: recycle, compost and garbage. They used the soil made by the local compost to plant sunflowers. Each child was given a goodie bag with a reusable lunch container, tangerines, recycle crayons, a treat and goldfish. All of the children enjoyed the presentation and were engaged the entire time. Thank you for teaching us how to care for the earth and our community.

THANK YOU to all of the parents who came to help with build day. We appreciate the preschool parents that came and supported us! Thank you Monica and Bergen for coming to build day and to all of the families that donated materials. Christian's dad, Gabe, had Ron pick up items from Central Valley and Jacob brought pallets. The children love learning, playing and creating in their new outdoor educational area.

Sunflower Class: This week the children learned about the Letter R. We made Robbie Rabbit, rainbows and talked about recycling.

Sunbeam Class: Our March theme is bugs and insects. This week we focused on bees. The books we read were *B is for Bee*, *That's Not My Bee* and we sang, "Bringing Home a Baby Bumble Bee." This week the babies and early toddlers also learned about the Letter X.
